3. Add Legacy Excel File.....	6
4. File Upload error Detail	10
5. Submitted Legacy Data.....	11

1. Introduction

The ADIP Scheme is in operation since 1981 with the main objective to assist the needy disabled persons in procuring durable, sophisticated and scientifically manufactured, modern, standard aids and appliances that can promote their physical, social and psychological rehabilitation by reducing the effects of disabilities and enhance their economic potential. Assistive devices are given to PwDs with an aim to improve their independent functioning and to arrest the extent of disability and occurrence of secondary disability. The aids and appliances supplied under the Scheme must have due certification. The scheme also envisages conduct of corrective surgeries, wherever required, before providing an assistive device. Under the Scheme, grants-in-aid are released to various implementing agencies (Artificial Limbs Manufacturing Corporation of India (ALIMCO)/National Institutes/Composite Regional Centre's/District Disability Rehabilitation Centre's/ State Handicapped Development Corporations/ NGOs, etc.) for purchase and distribution of aids and assistive devices

1.1 Purpose

The purpose of the document is to specify in detail the requirements & specification of the e-Governance system for ADIP. It details the functional & non functional requirements of the software to be developed. This document will be referred by the designers and developers of the software system for developing the web application, database, input & output forms and workflows

1.2 Scope

The scope of the portal is to develop the online processes for Department of Empowerment of Persons with Disabilities under Ministry of Social Justice and Empowerment, Government of India for This will enable the online user registration and online submit beneficiary/Camp wise utilisation details,

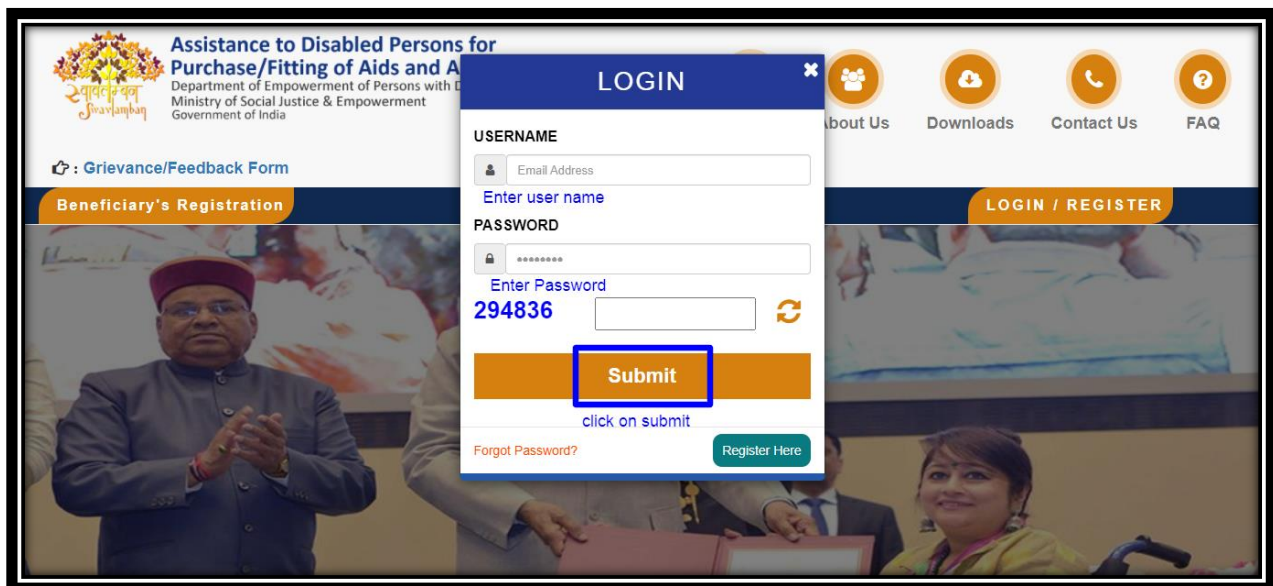

The system so conceived will have to fulfil the needs of the Department of Empowerment of Persons with Disabilities in terms of the following functional objectives:

- (A) To develop a web based application.
- (B) To maintain the various MIS using dashboards and drill down reports.
- (C) To keep track of the data and their status.
- (D) Analytical reports generations.
- (E) To have an integrated database, this will facilitate the processing of data available.
- (F) To maintain data integrity and data security.
